

HYUNDAI

SECURITY

TOP 10 REASONS TO CHOOSE HYUNDAI

01 ONE OF THE MOST PRESTIGIOUS BRANDS IN THE WORLD

HYUNDAI is a global leader in the digital age and is among the most valuable and important brands on the planet, bringing prestige and reliability to its CCTV and Access Control systems.

02 LATEST TECHNOLOGY

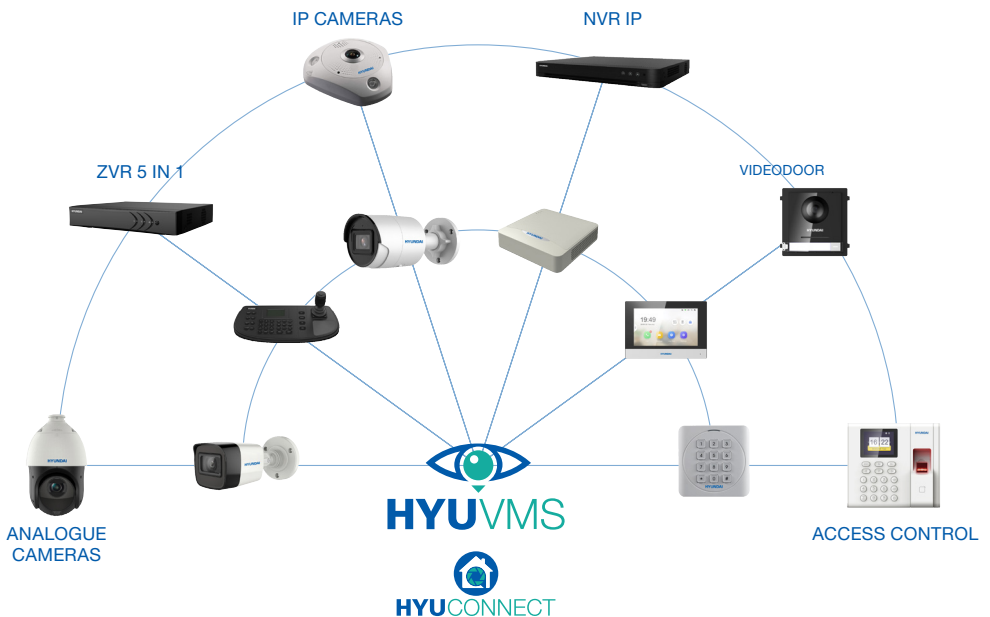

HYUNDAI offers only the latest technologies for the CCTV market, including Artificial Intelligence algorithms:

- Compatibility between HYUNDAI devices and all other brands on the market
- Proprietary P2P and DDNS servers, serving from Germany and Spain

03 FULL INTEGRATION WITH REMOTE DISPLAY AND MANAGEMENT

HYU-VMS is a surveillance software for Windows that supports a wide range of surveillance products such as recorders, video servers, IP cameras and motorised domes.

On the other hand, HYU-CONNECT is designed to work with HYUNDAI DVRs, NVRs and IP cameras that support the Cloud P2P function, allowing remote viewing of cameras.

04 INTUITIVE AND SECURE

All HYUNDAI IP devices have a simple and user-friendly interface. In addition, thanks to the P2P service, you can offer remote access to the equipment easily and securely.

08 EXTENSIVE STOCK AT SUPER COMPETITIVE PRICES

HYUNDAI products are marketed throughout Europe thanks to the extensive sales network of its exclusive European distributor By Demes Group, which offers the best service to its customers in terms of product availability thanks to its excellent logistical organisation, technical and sales support and always at the best price.

05 INTEGRATION WITH OTHER MARKET PLAYERS

As we are not alone, HYUNDAI products work under different protocols: Proprietary, Onvif, HTTP URL and RTSP, to integrate your cameras and recorders into third party systems (also SDK available for developers).

09 AFTER-SALES SERVICE THROUGHOUT EUROPE

HYUNDAI offers European technical support with an excellent response on RMA, DOA and Credit Notes requests, through its exclusive European distributor By Demes Group.

06 LONGEVITY AND ENDURANCE

These values are guaranteed by the most rigorous testing and quality inspections prior to the production and marketing of HYUNDAI technologies.

10 FREE ONLINE RESOURCES

Via www.hyundai-security.tech, HYUNDAI offers online resources including manuals, software (free HYU-CONNECT app for Android and iOS, free HYU-VMS client software for Windows) and tool kits (scanner, discovery tool, HDD backup, Backup player, HDD and bandwidth calculator, etc.).

07 THREE-YEAR WARRANTY ON ITS PRODUCTS

To demonstrate HYUNDAI's confidence in its products and high commitment to the installer, HYUNDAI offers a 3-year warranty to give customers maximum peace of mind with their security systems.
